

Dear Ms. Jackson, This the most destructive, poisonous, unjustified application in the last 25 years. A 500 acre PIT, 400 acres of poison tailings dump and pollution of the last productive drainage of the Salmon needs to be a slam dunk NO. I have recreated and visited in and around Yellow Pine for 40 years and this would trash that whole valley. The proposed jobs created would go to itinerant pro scabs and the cleanup will be yours to deal with. " I am so sorry ma'am, but the LLC is in bankruptcy and everyone is safely back in Canada." Don't fall for this AGAIN.

Name: Alan Reynolds
