

McGraw Hollow

Potential Soil Erosion and Steep Slope Hazard in Stands Proposed for Timber Harvest

-  Moderate Potential Erosion Hazard (Road/Trail)
-  Severe Potential Erosion Hazard (Road/Trail)
-  Moderate or Severe Potential Erosion Hazard (Road/Trail) and Slope >= 35%
-  Proposed Harvest Area^
-  Compartments
-  National Forest
-  Roads

NOTE: Proposed Harvest Area^ are proposed commercial timber harvest units listed in the Alt 3 column in Table A-1, Appendix A, Draft EA.
