

Dear Permitting Officials,

I have reviewed the Plan of Restoration and Operations and met with members of Midas Gold Idaho to better understand the company's plans for the Stibnite Gold Project. Below are my comments on the plan to be included in the comment period.

The Stibnite Gold Project will generate significant federal, state and local taxes over the life of the project. Estimate show the company will contribute \$86 million in state taxes over two decades. According to a study conducted in 2017, compensation on the Stibnite Gold Project would average approximately \$80,000 a year based on comparable operations in Idaho, as compared to \$35,000 in the area surrounding the project currently. The economic benefits tied in with the environmental restoration of the site provide a win-win for the citizens who live in the surrounding communities, the state and the general population. For example, when fish are reconnected to habitat upstream, 4.12-39 of the DEIS shows this long-term access will increase productivity and diversity of these isolated populations.

Midas Gold wants to restore the rivers, wildlife and habitat near the Stibnite Gold Project site. We should let them. Please permit Alternative 2 of the Stibnite Gold Project as outlined in the draft Environmental Impact Statement.

Yours,

Name: Debbie Eileen Griffith
