---

My name is Allyn Watson – [REDACTED]  
[REDACTED]

I want to express my opposition to the proposed Verde Connect Road – in my opinion it is not necessary and will cause more harm than good. It will change many peoples quiet life style that they move here for. It is going to be costly – especially as time goes on – it will end up increasing taxes that are already high, have an impact on the nature of the area. With the current state of world and state affairs it is a waste of taxpayers money. I from what I can see the people it will affect are opposed to it and the people who want to make names for themselves are for it. I hope you will give this serious consideration.
