

Good afternoon,

I am writing today in support of Midas Gold and the Stibnite project in central Idaho. Having worked and recreated in the area I have closely been following the progress and plans for this Historic mine site. I am excited to have discovered that Midas Gold has plans to not only revive the area, but in the long run clean it up and make it better than today. In addition to being environmental stewards, the jobs and economic impact this project brings to our community will benefit for years to come. The impact will not only benefit our local economy but economy of Idaho as a whole.

Thank you for your consideration and attention to this matter. It is my hope that you will approve the application as submitted and allow Midas to mine and destabilize our Idaho economy.

Sincerely,

Brandon Haag
