

GREETINGS,

I am writing in support of the Stibnite Gold Project. Thank you for the opportunity to provide my feedback as part of the National Environmental Policy Act.

After reading through the alternatives proposed by the USFS, Alt 5 seems unacceptable. If private industry is willing to take on past legacies, what will happen to the environmental legacies at Stibnite if there is no action? What resources will the U.S. Government dedicate to solving the water quality and fish passage problems if Alt 5 is selected?

This Stibnite Gold Project is a huge opportunity for Idaho. Please permit alternative 2 and continue moving the project forward so our citizens can reap the positive impacts.

Have a good day,

Name: Knoll Jett
