

U.S.F.S. Officials,

I am writing to encourage you to permit the Midas Gold Idaho's Stibnite Gold Project.

After seeing all the hard work and systematic strategies to repair the environment, I am confident this is the best solution for Idaho. As a geologist and outdoorsmen, I would greatly appreciate being able to enjoy this area.

For years, I explored all the backcountry areas in Idaho, but I've always avoided this area due to environmental devastation. With Midas's solutions, I am confident that one day I'll be able to explore the area with my family and fish it's streams.

If the environment repairs aren't a big enough incentive, the economic benefits are enormous and will bring 500 highly technical jobs to Idaho.

This is a complex problem, and Midas has the solution. I urge you to approve this project.

Thanks,

Joshua Hudgins
