

Hello,

Midas Gold Idaho has been a member of the community for the past decade. During this time, the company and its employees have become wonderful champions and supporters of our community. They've volunteered their time in our schools and given generously to community causes. The company's track record of following through on its promises and doing the right thing gives us the confidence to write in support of permitting the Stibnite Gold Project.

The study of the Stibnite Gold Project brought to light the environmental conditions existing at Stibnite because of past operators. Arsenic levels in the EFSSR are far beyond safe standards. If Alternative 5 is selected, how will USFS address these legacies impacting the waters of Idaho? Who will pay to provide permanent and volitional fish passage?

Thank you for reviewing my comments. Again, I urge you to permit Midas Gold's carefully thought out plan as outlined under alternative 2.

Respectfully,

Qersland Rith
