

Hello,

I am writing to share my thoughts on Midas Gold Idaho's Stibnite Gold project. They shouldn't be allowed to go forward with this project. They'll rape and pillage our lands and leave nothing behind but waste. Look at Panther Creek the FS is buying up those homesteads in order to circumnavigate the destruction caused by that mining operation. They can take their greedy fingers elsewhere. Idaho is too great and our Salmon/Steelhead need help not more barriers.

Craig
