

Dear Payette National Forest Staff,

This letter is to express my support of Midas Gold's Stibnite Gold Project.

I am a user of the Salmon river for recreation and very concerned with protecting Idaho waters and Wild and Scenic Rivers. The robust design planned for the project shows me that Midas Gold is committed to the same. The Stibnite site will benefit greatly from the proposed restoration that would be performed as part of the project. Without the project, it is doubtful that the site will be fully restored.

Best Wishes,

Kevin Lutes, P.E.
