

Usfs,

I am a cabin owner at Warm Lake. Our cabin is close to the Warm Lake USFS road. We are in a strong position to be impacted by road noise and traffic.

I have toured the mine site and I am impressed with the professionalism and apparent integrity of the employees I met and spoke.

I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Midas Gold has shown its commitment to Valley County and the state of Idaho and I encourage you to adopt the proposed activities outlined in Alternative 2 during the permitting process.

The Stibnite Gold Project is good for the Idaho workforce. Midas Gold's strong commitment to hiring locally and using local vendors and suppliers helps build our economic base. The salaries of the positions at the Stibnite Gold Project will be approximately two times higher than typical jobs in Valley County. The financial security and on-the-job training opportunities these positions bring has the potential to bring meaningful change to families throughout the region. Additionally, we know mining brings more than jobs and robust wages to our state, it promotes the development of secondary businesses and the production of more goods and materials right here in Idaho.

Midas Gold wants to restore the rivers, wildlife and habitat near the Stibnite Gold Project site. We should let them. Please permit the Stibnite Gold Project. I think that their desire to restore the health of the mine site is honorable and sincere.

Best Wishes,

Name: Deborah Anne Artis
