

TO WHOM IT MAY CONCERN,

I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Midas Gold has shown its commitment to Valley County and the state of Idaho and I encourage you to adopt the proposed activities outlined in Alternative 2 during the permitting process.

The Stibnite Gold Project is good for the Idaho workforce. Midas Gold's strong commitment to hiring locally and using local vendors and suppliers helps build our economic base. The salaries of the positions at the Stibnite Gold Project will be approximately two times higher than typical jobs in Valley County. The financial security and on-the-job training opportunities these positions bring has the potential to bring meaningful change to families throughout the region. Additionally, we know mining brings more than jobs and robust wages to our state, it promotes the development of secondary businesses and the production of more goods and materials right here in Idaho.

The Stibnite Gold Project is the type of project our state needs. I highly encourage the U.S. Forest Service to permit this project, using the alternative two presented by Midas Gold, as expeditiously as possible. There is no need to extend the comment period.

Sixty days is plenty of time to comment and we need the benefits of this project now.

Regards,

Name: Kari Rayson
