

To whom it may concern,

This couldnt be a better time to add this and other business to our comunity. With the shutdown of millions of businesses and jobs across America we are blessed to have a business that will bring so much fortune to our community's. I personally will be looking at getting s job here and so are many people u know. I think the positive comments come from the unheard majority and I know I am speaking for many friends and co workers that feel the same way. If we dont do this gold and other metals will continue to be mined from in and outside the America, people in this comunity will continue to buy gold, let's use our own resources, spend money locally, give people jobs and help our local economics.

Thanks for your time and feel free to contact me any time,
