

I wish to express my support for the Snibnite Midas Gold Project.

We need to use our country's minerals in a responsible manner and it appears that Midas Gold has a plan that will be environmentally safe and efficient.

I urge you to accept Midas Gold's plan as outlined under alternative two. The U.S. Forest Service has provided the public with helpful virtual tools and materials to submit meaningful comments on the project within the allotted timeframe. It is time to move this project forward.
