

To Whom it May Concern,

Midas Gold Idaho has been a member of our community for the past decade. During this time, the company and its employees have become wonderful champions and supporters of our community. They've volunteered their time in our schools and given generously to community causes. The company's track record of following through on its promises and doing the right thing gives us the confidence to write in support of permitting the Stibnite Gold Project.

Midas Gold has worked hard to ensure the safety of the community during construction and operations of the Stibnite Gold Project. To minimize travel near important waterways, Midas Gold has proposed using Burntlog Road. This allows the company to take advantage of existing Forest Service roads and reduce travel on Johnson Creek and South Fork Road – both of which are heavily used by recreationalists. This plan maximizes safety and ensures all Idahoans have access to our public lands.

This Stibnite Gold Project is a huge opportunity for Idaho. I am grateful for the tools the Forest Service has provided to review the DEIS and learn more about the project. These tools have given Idahoans sufficient time to comment. Please permit alternative 2 and continue moving the project forward so our citizens can reap the positive impacts.

Thank You,

Name: Faith Byers
