

USFS,

Thank you for the opportunity to provide feedback on the Stibnite Gold Project as part of the public permitting process. I know this project will have a positive impact on the environment, communities surrounding the site and Idahoans.

By law Midas Gold Idaho is required to set aside all of the money needed for restoration prior to any mining activity. This gives me, and Idahoans, peace of mind that the restoration work the company has discussed will come to fruition no matter what happens. If Midas Gold Idaho is allowed to move forward with its work, salmon will be reconnected to their native spawning grounds. This hasn't happened in 80 years! Mining has devastated this area. Midas Gold Idaho wants to fix it and I hope you will clear the path to allow their restoration work to move forward.

Midas Gold Idaho wants to invest \$1 billion in our state, bring more than hundreds of jobs to rural Idaho and still provide access to Idaho's public lands. This is the type of project our state needs. The U.S. Forest Service has provided Idahoans with meaningful tools to easily review the document and ample time to comment. I highly encourage the U.S. Forest Service to permit this project following alternative two.

Best Wishes,

Name: Ms. Dolores R Cowell
