

To Whom it May Concern,

If Midas Gold Idaho is allowed to move forward with the Stibnite Gold Project, they will reclaim an area impacted by historical mining, create hundreds of well-paying jobs and provide a huge boost to our economy in the process. It is a win-win for Valley County. We need to permit the project.

Midas Gold Idaho believes in a local workforce and has promised to hire Idahoans whenever possible. The company will provide employees with training and help our state build a more skilled workforce. These jobs are not entry level positions and the skills are valuable in other industries outside of mining. Midas Gold estimates salaries will be two times higher than the local average in Valley County. This can make a big difference in the life of many families.

The comment period has been extended once already. It should not be delayed further. This only delays Idaho from recognizing the benefits of the project. The current USFS timeline provides plenty of time to review the DEIS and comment. After reviewing the document, I encourage you to permit alternative 2 of the project.

Have a good day,

Name: ANN K COX
