

Dear US National Forest Service Staff,

I am writing to express my views on Midas Gold Idaho's Stibnite Gold Project. The opportunity presented by the Stibnite Gold Project is compelling for many reasons and it is a project I am committed to seeing come to fruition.

Midas Gold has carefully researched the Stibnite Gold Project since 2009. Throughout this time, the company has proactively engaged members of our community and consistently sought our feedback. Some of our suggestions are reflected in alternative two " including the proposed road to site to keep traffic and potential pollutants away from our waterways. The company selected using Burntlog Road after many discussions with local residents. In my mind, actions speak louder than words and Midas Gold has proven they will be a good partner moving forward.

This project is a huge opportunity for Idaho. I encourage the U.S. Forest Service to permit alternative 2 so this brownfield site can finally be restored. The comment period has been extended once already. Sixty days gives Idahoans enough time to submit their comments and I hope there will be no additional delays.

Respectfully,

Name: Said Elkhamrichi
