

Linda Jackson,

This letter is to express my support of Midas Gold's Stibnite Gold Project. America needs this project to be permitted. I hope after reading my thoughts you will understand why my support for Midas Gold Idaho is so strong.

After reviewing the DEIS using the tools provided by the U.S. Forest Service, I believe Alternative 2 is the best option moving forward. It limits the project footprint, keeps traffic away from key waterways, improves water quality and is economically feasible. The project would also provide key economic benefits to the region, such as family-wage jobs and a boost to the local tax base, as well as environmental restoration. Midas Gold currently is the only company with a feasible plan to fix the long-standing legacy issues at the site, such as blocked fish passage and degraded water quality. I feel confident Midas Gold will follow through on its promises to restore the site because of federal and state financial assurance laws. The regulations will require Midas Gold to set aside the necessary funds for restoration and reclamation before any mining begins.

Idahoans need to see the benefits of the Stibnite Gold Project come to life. The comment period should be kept to 60 days, so the process can continue to move forward. It is with this knowledge that I encourage the U.S. Forest Service to select the modified plan of restoration and operations Midas Gold Idaho presented, known as Alternative 2 in the draft Environmental Impact Statement, and permit the project.

Best Wishes,

Name: Said Elkhamrichi
