

Usfs,

This letter is to express my support of Midas Gold's Stibnite Gold Project. America needs this project to be permitted. I hope after reading my thoughts you will understand why my support for Midas Gold Idaho is so strong.

Midas Gold Idaho has prioritized public access to Idaho's backcountry. While the company feels Stibnite Road is too dangerous to safely transport employees and equipment to the site, they recognized how important this route was for residents who live in the area. The ModPRO they submitted to the U.S. Forest Service allows Idahoans to continue to access Thunder Mountain by driving through the site when it is safe and feasible. Review alternative 2 and you can see Midas Gold wants Idahoans to continue to have easy access to our public lands.

The comment period for the project was already extended once. The U.S. Forest Service has given the public more than adequate time to comment, plus tools that make reviewing the document easy and a virtual meeting room to make information more digestible. It is with this knowledge that I encourage the U.S. Forest Service to continue to move the project forward and permit the site using alternative 2 as the guide.

My best,

Name: David Breikreutz
