

DEAR MS JACKSON,

Midas Gold Idaho has been a member of our community for the past decade. During this time, the company and its employees have become wonderful champions and supporters of our community. They've volunteered their time in our schools and given generously to community causes. The company's track record of following through on its promises and doing the right thing gives us the confidence to write in support of permitting the Stibnite Gold Project.

The Stibnite Gold Project will generate significant federal, state and local taxes over the life of the project. Estimate show the company will contribute \$86 million in state taxes over two decades. The economic benefits tied in with the environmental restoration of the site provide a win-win for the citizens who live in the surrounding communities, the state and the general population.

I encourage the USFS to move the Stibnite Gold Project forward and permit Midas Gold Idaho's project as outlined in their Modified Plan of Restoration and Operations, alternative 2 in the DEIS. The USFS has provided meaningful time to submit comments and already extended the comment period once, there should be no further delays.

Sincerely,

Name: John Cutrumbes
