

Dear Ms. Jackson:

Midas Gold needs your attention. I find it difficult to understand why the process takes so long. Most especially when they will vastly change your economy. Given your state is known as the largest mining in America, I would be proud to utilize the God given gifts He has blessed you with. No, I am not a religious nut, but I do believe He made the earth.

But, to all things a purpose. Right now that is your support for a great company with strong leadership and imminent mineral resources that can only bring more revenue for the state.

Please assist us to deal with this matter in a positive and worthy cause.

Sincerely,

Anne Cameron.

Name: Anne Cameron
