

Dear Permitting Officials,

This letter is to express my support of Midas Gold's Stibnite Gold Project. America needs this project to be permitted. I hope after reading my thoughts you will understand why my support for Midas Gold Idaho is so strong.

The Stibnite Gold Project will help to restore the environment in our region. Under alternative two, Midas Gold has prioritized restoration work so many of the efforts occur early in the project. The company is also required to set aside all of the funds needed to properly restore the site in a special trust so the land will be restored no matter what happens to the company. Reclamation efforts have already started at the site. Midas Gold has planted thousands of trees and worked to reduce sediment entering waterways near the site. To me, these actions prove the company is truly committed to restoring the site.

As the U.S. Forest Service and other state and federal agencies review the proposed plan and determine the course of action, I encourage you to consider and appropriately weigh the positive benefits Midas Gold will have on Idaho. We need to move this project ahead after the 60-day comment period. Alternative Two truly is a win-win opportunity for Idahoans and the environment.

Best Wishes,

William C. Kobin-Investor

P.S. From my investment experience in other mining projects, I have never before seen the extent of the physical and financial attention being given in conjunction to the planned reclamation for the Midas Gold Mine project. This speaks well of the integrity of the principals involved as also for the success of the scope of reclamation involved.

Name: William C Kobin
