

Attention Linda Jackson,

I have reviewed the Alternative 2 and spoken with advisors of Midas Gold to better understand the company's plans for the Stibnite Gold Project. Below are my comments on the plan to be included in the comment period. I am also an investor in the company because I can see all the benefits and great potential for the mine.

Midas Gold has made it clear that reclamation efforts will start alongside operations. They have worked to find safe access routes to the site that keeps vehicles away from our precious waterways. Plus, the company is trying to minimize their impact on the environment by keeping facilities within the existing footprint of historic mining operations.

While the economic benefits of this project cannot be ignored, it also will transform an area in need for environmental repair. It is for all of these reasons that I strongly encourage you to move the Stibnite Gold Project forward, as outlined in alternative 2, within this 75-day comment period.

Regards,

James Foerstner
