

Dear Ms. Jackson,

This should be a "no-brainer" for advancing the permit in question. The project is good for the people of Idaho, the community, the state and the environment. The company plans to invest over a billion dollars in the project. Any environmental objections have been overcome with tedious planning. As a shareholder, I have invested in the company because I have confidence the project will succeed and the end be good for me, the company and the nation.

I would like to thank the U.S. Forest Service for providing the opportunity, and sufficient time, to comment on this important project's permitting process. I hope the U.S. Forest Service will realize the benefits this project and permit the Stibnite Gold Project using alternative 2.

Most Respectfully,

Robert Bruce Langston
