

Attention Ms. Jackson,

I have heavily invested in Midas and Idaho. Let's get this GREEN project on the road.

Midas Gold Idaho's Stibnite Gold Project presents Idaho, particularly rural Idaho, with a huge economic and environmental opportunity. I am writing to encourage you to permit the project as quickly as possible.

Midas Gold prioritizes working alongside Idahoans. The company has shown a clear interest in understanding and remedying concerns around the project. They have taken the time to work with the community to develop solutions that work for everyone. For example, the company worked closely with residents of Yellow Pine, recreationalists and snowmobilers to figure out how to preserve access to certain roads in the backcountry. The changes the company made are included in alternative 2. The company didn't need to do this but they did because they knew it was the right thing to do. Through their collaboration with stakeholders at all levels, they have come up with a plan that will not only help Idaho's economy but help restore a legacy site. Their plan has considerable community support.

Thank you for your time, consideration and for giving Idahoans meaningful time to comment on the Stibnite Gold Project. Alternative two is by far the best option in the DEIS.

Warm regards,

Name: Alan J Stroup
