

Ms. Jackson,

Thank you for the opportunity to provide feedback on the Stibnite Gold Project as part of Midas Gold Idaho's comment period. I have been closely following Midas Gold Idaho's plans since they first came into our state, in large part because much of the proposed project will take place on public land. The more I have learned about the project, the more excited I am about the possibilities for the future.

If the Stibnite Gold Project goes into production, Idaho would see a huge economic benefit. Midas Gold plans to invest \$1 billion in the state, contribute \$86 million in state and local taxes and make improvements to roads and power grid near the site. The company has also made a pledge to hire locally whenever possible and plans to provide around 1,000 jobs for Idahoans throughout the life of the project. Midas Gold salaries will be approximately two times higher than the local salary. It is impossible to ignore the positive trickledown effect an investment of this size would have on our community and economy.

I encourage the USFS to move the Stibnite Gold Project forward and permit Midas Gold Idaho's project as outlined in their Modified Plan of Restoration and Operations, alternative 2 in the DEIS. The USFS has provided meaningful time to submit comments and already extended the comment period once, there should be no further delays.

Warm regards,

Name: Puran Mainali
