

TO WHOM IT MAY CONCERN,

If Midas Gold Idaho is allowed to move forward with the Stibnite Gold Project, they will reclaim an area impacted by historical mining, create hundreds of well-paying jobs and provide a huge boost to our economy in the process. It is a win-win for Valley County. We need to permit the project.

After reading my letter, I hope you can see why you should permit alternative 2 of the Stibnite Gold Project. This project is a good thing for Idaho, helps decrease America's dependence on foreign countries for critical minerals and cleans up the environment. These benefits cannot wait. I hope the USFS will stick to the new October 28 deadline for the comment period.

Idahoans need to see the benefits of the Stibnite Gold Project come to life. The comment period should be kept to 60 days, so the process can continue to move forward. It is with this knowledge that I encourage the U.S. Forest Service to select the modified plan of restoration and operations Midas Gold Idaho presented, known as Alternative 2 in the draft Environmental Impact Statement, and permit the project.

Warm regards,

Name: Marcia Jacobs
