

To Concerned Payette National Forest Staff,

I appreciate the opportunity to comment on the Stibnite Gold Project.

Reviewing Midas Gold's plans it is clear to me the company really believes in taking care of the environment and keeping the community safe. I urge you to permit the Stibnite Gold Project using alternative two and keep this project moving forward. The comment period has been extended by 30 days already, please close the comment period on October 28, so we can prevent additional delays.

Midas Gold Idaho wants to invest \$1 billion in our state, bring more than 1,000 jobs to rural Idaho and still provide access to Idaho's public lands. It will also provide the U.S. with precious metals that are greatly needed in our manufacturing businesses. And with the coronavirus, we need it now more than ever. The USFS has provided sufficient time to review the document and provide comments. It is time to move forward. I highly encourage the U.S. Forest Service to pick alternative 2 as the preferred alternative for the Stibnite Gold Project.

Respectfully,

Kim Zeydel
