

Ms. Jackson,

This letter is to express my support of Midas Gold's Stibnite Gold Project. America needs this project to be permitted. I hope after reading my thoughts you will understand why my support for Midas Gold Idaho is so strong.

We must mine to get the Antimony - right now it all comes from China - and it is an ESSENTIAL mineral in munitions and fire protection.

Our natural resources are what makes this country great. Leaving these valuable minerals in the ground is just plain stupid.

Right now Stibnite is a mess, this mining operation will clean it up without all the cleanup money coming from our taxes.

Mine it - now.

After reading my letter, I hope you can see why you should permit alternative 2 of the Stibnite Gold Project. This project is a good thing for Idaho, helps decrease America's dependence on foreign countries for critical minerals and cleans up the environment. These benefits cannot wait. I hope the USFS will stick to the new October 28 deadline for the comment period.

While the economic benefits of this project cannot be ignored, it also will transform an area in need for environmental repair. It is for all of these reasons that I encourage you to move the Stibnite Gold Project forward as outlined in alternative 2 within this 60-day comment period.

Thanks Again,

Name: Dwight C Jividen
