

USFS,

I appreciate the opportunity to comment on the Stibnite Gold Project as it will directly impact me and my access to the backcountry.

Thank you for your time, consideration and for giving Idahoans meaningful time to comment on the Stibnite Gold Project. Alternative two is by far the best option in the DEIS.

Idahoans need to see the benefits of the Stibnite Gold Project come to life. The comment period should be kept to 60 days, so the process can continue to move forward. It is with this knowledge that I encourage the U.S. Forest Service to select the modified plan of restoration and operations Midas Gold Idaho presented, known as Alternative 2 in the draft Environmental Impact Statement, and permit the project.

Respectfully,

Name: Jeanette Dymond
