

Dear Payette National Forest Supervisor,

I am proud to welcome Midas Gold Idaho into our state and proud to support the Stibnite Gold Project. I hope you will take the time to consider my comments on why you should move to permit the project.

The comment period for the project was already extended twice. The U.S. Forest Service has given the public more than adequate time to comment, plus tools that make reviewing the document easy and a virtual meeting room to make information more digestible. It is with this knowledge that I encourage the U.S. Forest Service to continue to move the project forward and permit the site using alternative 2 as the guide.

For the above reasons and many more, please move forward with alternative 2 of the Stibnite Gold Project as it is important to all Idahoans. The comment period provides plenty of time to read the DEIS and submit comments. Further extensions of the comment period are unnecessary and will needlessly delay the project.

Best Wishes,

Name: Leon Gustafson
