

Ms. Linda Jackson and Staff,

I have been closely following Midas Gold Idaho's plans for several years as an investor. I am excited to have the opportunity to comment on their Draft EIS. Midas Gold Idaho presents a huge opportunity for the citizens of Idaho.

The Stibnite Gold Project will bring huge economic benefits to Idaho, particularly in Valley County. Midas Gold will invest a billion dollars in the project and restore a nearby river. The Project will employ 400-500 employees during construction and operations. Payroll is expected to exceed \$34 million. These numbers do not even capture the indirect jobs that will be created by the Project. Some third-party estimates show one indirect job will be created every time Midas Gold hires one full-time employee. The project, when permitted, will have a positive, widespread impact on the county and the state.

Midas Gold wants to restore the rivers, wildlife and habitat near the Stibnite Gold Project site as part of the project. We should let them and demand it of them. The Forest Service has given meaningful time to review the document and comment. Extension have been granted twice; further extensions are not necessary and will only hurt Idahoans by delaying the benefits of the project. Please permit Alternative 2 of the Stibnite Gold Project as outlined in the draft Environmental Impact Statement.

Thank you.

Name: Frederick J Abramek
