So when it may concern:

We are opposed to any further development in our east mountains.

Grand Tughee has more than enough land ruined already.

No development in Teton Canyon would be a terrible waste of our beauty.

There is also a problem with the traffic on Ski hill road. There are very few that obey the speed limit on this road.

The road is over loaded now & could not support the added traffic that would ensure I sincerely oppose any further development in our Teton Canyon & any of the rest of our east mountains.
