Hello Dana – The current proposal does not include additional parking. Most of Grand Targhee’s parking is on private land and is not subject to environmental analysis under the National Environmental Policy Act. However, the Forest Service recently analyzed a proposal from Grand Targhee for additional employee parking on Forest Service land; a copy of that decision is located here: <https://www.fs.usda.gov/project/?project=56162>

A change in ticket price is not subject to environmental analysis and therefore is not part of the proposal.

Please let me know if you have additional questions.

Subject: Grand Targhee

I was looking over the proposed upgrades and expansions and did not see anything about additional parking. Did I miss this in the synopsis that was sent out?

I feel this is one of their biggest problems. Especially on a powder day.

Is there any place they shows how this will affect ticket prices? One reason I ski Targhee is it is still fairly affordable. I hope this does not turn them into a \$150 lift ticket.

Thanks for answering these questions or routing me to where I can find the answers.
