I am a resident of La Plata or Archuleta county and support the proposed OHV trail described in the "Southern HD's Landscape Restoration Project Scoping Notice" for some of the following reasons:

1) The primary purpose of this trail is as a fire line. OHV trails that are used regularly reduce the encroachment of vegetation on the trail which, in this case, would maintain the integrity of the fire line.
2) It is a relatively short trail, only about 5 miles, and would connect 2 larger trail systems, both approximately 20 miles long. This connection would significantly enhance the OHV riding opportunities in the area.
3) Since it is so short there would be little, if any, environmental impact.
