Hi Cam!

I hope you are doing well. Thanks for sending over the scoping notice for the upcoming veg and prescribed fire scope. It looks like part of the project may be close to Structure 88 of our Bayfield-Pagosa transmission line. Robert Flores is our line maintenance supervisor for that line and he will be our point of contact for activities close to our line. The FS has always been great about reaching out before prescribed fire activities so we can ensure we are able to take the line out of service if there is an unexpected issue.

Robert's contact is [REDACTED] and his email is [REDACTED]

Thanks again! I hope you have a good rest of your week and a good weekend.

Diana
