

DEAR MS JACKSON,

Thank you for the opportunity to provide my feedback as part of Midas Gold Idaho's public permitting process.

This project is a huge opportunity for Idaho. I encourage the U.S. Forest Service to permit alternative 2 so this brownfield site can finally be restored. The comment period has been extended twice. People have been given enough time to submit their comments and tools to I hope there will be no additional delays.

The Stibnite Gold Project is the type of project our state needs. I highly encourage the U.S. Forest Service to permit this project, using alternative two presented by Midas Gold, as expeditiously as possible. There is no need to extend the comment period. Sixty days is plenty of time to comment and we need the benefits of this project now.

Most Respectfully,

Name: jay chong
