

Ms. Jackson,

Although I am not an Idaho resident or US citizen, I encourage you to permit the proposed activities outlined by Midas Gold in Alternative 2 during this public input process.

I have thoroughly reviewed Alternative 2 and believe it is a comprehensive and effective solution to protect the environment and fish population in the proposed area. It is the best scenario to solve the historical environmental problems facing the citizens of the district and provides the added benefit of jobs and carry-over economic benefits to the local residents, benefits that accrue both immediately and in the long term.

As a businessperson, I can attest that the greatest satisfaction in work is to help provide well-paying, stable jobs that allow local residents to contribute to a vibrant community. The stability, prosperity and welfare provided by the type of jobs Midas Gold can provide will radiate throughout the community and through generations. I encourage you not to miss this opportunity, accept the Alternative 2 plan and permit the project.

Thanks, and with best regards,

Tom Ullrich
