

U.S.F.S. Officials,

I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Midas Gold has shown its commitment to Valley County and the state of Idaho and I encourage you to adopt the proposed activities outlined in Alternative 2 during the permitting process.

Alternative 2 is the best proposal for Idaho communities. This alternative promises to create hundreds of local jobs. Midas Gold has committed to purchasing supplies locally as much as possible and have already spent millions in Idaho to date. The company predicts it will directly employ somewhere around 500 people during construction and operations of the mine. Independent studies also show hundreds of indirect jobs will be created as a result of the Stibnite Gold Project during both phases of the project. I am excited about the opportunities this could bring for Idaho families especially as our nation attempts to recover from the ongoing pandemic. But besides the economic benefits, the project will help our environment. Right now, the area of the proposed mine is a brownfields site. Cleaning it up will be expensive. And no one else is proposing to do the work besides Midas Gold. If the Stibnite Gold Project doesn't move forward, this burden will fall to us as taxpayers or more likely, the site may never get cleaned up at all.

Reviewing Midas Gold's plans it is clear to me the company really believes in taking care of the environment and keeping the community safe. I urge you to permit the Stibnite Gold Project using alternative two and keep this project moving forward. The comment period has been extended by 15 days once already, please keep the comment period to 60 days, so we can prevent additional delays.

Please keep my comments in mind,

Name: Colleen Miller
