

To Concerned Payette National Forest Staff,

This letter is to express my support of Midas Gold's Stibnite Gold Project. America needs this project to be permitted. I hope after reading my thoughts you will understand why my support for Midas Gold Idaho is so strong.

Of all the options being considered by the USFS, Alternative 2 seems to me to be the best for cleaning up Stibnite and protecting the environment for generations to come. The other alternatives all leave significant room for improvement. In Alternative 3, the tailings storage facility location is not as safe as it would be placed in a pristine part of the East Fork of the South Fork of the Salmon River while Alternative 2 keeps the facility in an area that has already been impacted by mining. Alternative 4 would keep access roads where they are today (right next to important waterways), while Alternative 2 moves access roads to site away from streams, creeks and rivers to reduce the risk of spills and minimize sedimentation.

This Stibnite Gold Project is a huge opportunity for Idaho. I am grateful for the tools the Forest Service has provided to review the DEIS and learn more about the project. These tools have given Idahoans sufficient time to comment. Please permit alternative 2 and continue moving the project forward so our citizens can reap the positive impacts.

Best Wishes,

Name: Heather Rost
