

U.S.F.S.,

I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Over the past several years Midas Gold has shown its commitment to Valley County and the state of Idaho and I encourage you to permit the proposed activities outlined by Midas Gold in its Alternative 2.

Of all the options being considered by the USFS, Alternative 2 seems to me to be the best for cleaning up Stibnite and protecting the environment for generations to come. The other alternatives all leave significant room for improvement. In Alternative 3, the tailings storage facility location is not as safe as it would be placed in a pristine part of the East Fork of the South Fork of the Salmon River while Alternative 2 keeps the facility in an area that has already been impacted by mining. Alternative 4 would keep access roads where they are today (right next to important waterways), while Alternative 2 moves access roads to site away from streams, creeks and rivers to reduce the risk of spills and minimize sedimentation.

Midas Gold Idaho wants to invest \$1 billion in our state, bring more than 1,000 jobs to rural Idaho and still provide access to Idaho's public lands. This is the type of project our state needs. And with the coronavirus, we need it now more than ever. The USFS has provided sufficient time to review the document and provide comments. It is time to move forward. I highly encourage the U.S. Forest Service to pick alternative 2 as the preferred alternative for the Stibnite Gold Project.

Most Respectfully,

Name: Nicole Sanders
