

Dear Ms. Linda Jackson,

I am proud to welcome Midas Gold Idaho into our state and proud to support the Stibnite Gold Project. I hope you will take the time to consider my comments on why you should move to permit the project.

What I like about Midas Gold's plan is that it offers solutions for damage caused by legacy operations and creates a brighter future for the site. For example, Midas is cleaning up old mining waste from projects dating back to the WWII era. I know that Alternative 2 is a holistic proposal that addresses existing issues and protects against their reoccurrence. Tailings are just one issue related to mining projects, and Midas is addressing them directly. Under Alternative 2, the company will construct a long-term storage facility for future waste from mining operations. The facility is designed to withstand an earthquake up to 6.5 on the Richter scale. I feel confident the company has considered multiple scenarios in the design, so it will be able to operate continuously with no problems in order to protect the environment.

Midas Gold wants to restore the rivers, wildlife and habitat near the Stibnite Gold Project site. We should let them. The Forest Service has given meaningful time to review the document and comment. Further extensions are not necessary and will only hurt Idahoans by delaying the benefits of the project. Please permit Alternative 2 of the Stibnite Gold Project as outlined in the draft Environmental Impact Statement.

Warm regards,

Name: Candace Sullivan
