

To Whom it May Concern,

Over the past years since I was made aware of the hopeful plans of Midas to clean up much of what has been left behind and help to restore the natural habitat of the native fish and wildlife, I have been in favor of this project being approved.

Almost 100 years and no agency or people group has had the budget to provide that which Midas has planned to do. Cleaner water is vital to ALL who swim or drink from this source, be they human or natural wildlife.. Considering the numerous jobs this project will ultimately provide, not just those employed by Midas but all the residual layers that will be created is vital to the economy of Idaho.

With the way the job market has been devastated by COV19, we the people need approval of the project.

Thank you for considering my thoughts on the project. I am grateful for the virtual meeting room you created. It made learning about the project easy and gave me the tools I needed to submit meaningful comments within the 60-day timeframe. If I can do it, anyone can. I urge you to move forward with alternative two.

Thank You,

Name: Dan Blanton
