

Attention Ms. Jackson,

I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Midas Gold has shown they are committed to Idaho and want to take care of the environment. I hope you move forward and permit this project as quickly as possible.

I am pleased to see Midas Gold wants to take responsibility and clean up the damage left behind by mining operations in the early 20th Century “ even though the company was not involved in any of the previous activity at the site. Midas Gold has a plan to reunite salmon and trout with their spawning grounds for the first time in 80 years. Their plan for the East Fork of the South Fork of the Salmon River over the backfilled Yellow Pine pit will recreate natural conditions as close as possible. They plan to provide permanent access to approximately 25 miles of perennial stream and 6 miles of anadromous fish spawning habitat, and the company has agreed to install a temporary artificial fish passageway that will allow fish to swim past the old mining pit before mining even begins.

I would like to thank the U.S. Forest Service for providing the opportunity, and sufficient time, to comment on this important project's permitting process. I hope the U.S. Forest Service will realize the benefits this project and permit the Stibnite Gold Project using alternative 2.

Thanks for your Consideration,

Name: Connie Freed
