

Linda Jackson,

Midas Gold Idaho has been a member of our community for the past decade. During this time, the company and its employees have become wonderful champions and supporters of our community. They've volunteered their time in our schools and given generously to community causes. The company's track record of following through on its promises and doing the right thing gives us the confidence to write in support of permitting the Stibnite Gold Project.

Midas Gold has made it clear reclamation efforts will start alongside operations. They have worked to find safe access routes to the site that keeps vehicles away from our precious waterways. Plus, the company is trying to minimize their impact on the environment by keeping facilities within the existing footprint of historic mining operations.

I encourage the USFS to move the Stibnite Gold Project forward and permit Midas Gold Idaho's project as outlined in their Modified Plan of Restoration and Operations, alternative 2 in the DEIS. The USFS has provided meaningful time to submit comments and already extended the comment period once, there should be no further delays.

Respectfully,

Name: Allen Maveety
