

Attention Linda Jackson,

I am proud to welcome Midas Gold Idaho into our state and proud to support the Stibnite Gold Project. I hope you will take the time to consider my comments on why you should move to permit the project.

I am impressed by Midas Gold's plans to clean up water quality conditions at the site by removing sediment and old materials blocking the East Fork of the South Fork of the Salmon River. Today, steelhead and Chinook salmon cannot access spawning grounds because they are blocked by an abandoned mining pit. Midas will address this issue before mining even begins â€“ reconnecting fish for the first time in more than 80 years. The company will build a fish passageway in the short term and eventually restore full access to 25 miles of perennial stream and 6 miles of fish spawning habitat above the Yellow Pine pit. If we do not allow Midas Gold to move forward with their plans, it is highly unlikely anyone else will provide the funds needed to reconnect fish to this currently lost habitat.

As the U.S. Forest Service and other state and federal agencies review the proposed plan and determine the course of action, I encourage you to consider and appropriately weigh the positive benefits Midas Gold will have on Idaho. We need to move this project ahead after the 60-day comment period. Alternative Two truly is a win-win opportunity for Idahoans and the environment.

Thank You,

Name: abdul karim
