

TO WHOM IT MAY CONCERN,

I am writing to share my thoughts on Midas Gold Idaho's Stibnite Gold project. There are many reasons why I am excited for Midas Gold's project to come to life and I hope through my comments you will understand why.

First they will bring a lot of jobs and revenue to the local economy. They do business here locally as much as possible. I have seen this first hand.

Second they will clean up and improve the problems and area left over from the old mine. There isn't any benefits to leaving it the way it is. It needs them to come in and clean it up.

Third they give back to the community in donations and support to many organizations.

The way I see it there are only positive things coming from this company and their project.

I'm born and raised here in Idaho. I have lived in McCall almost 20 years now. I care about our way of life. That's why I feel like this is so important for this area and the community.

Thank you for your time, consideration and for giving Idahoans meaningful time to comment on the Stibnite Gold Project.

Most Respectfully,

KC Nay
