If Midas Gold Idaho is allowed to move forward with the Stibnite Gold Project, they will reclaim an area impacted by historical mining, create hundreds of well-paying jobs and provide a huge boost to our economy in the process. It is a win-win for Valley County. We need to permit the project.

As a current employee of OK Gravel, I have seen firsthand the economic benefits Midas Gold has brought to our area. With a cost of roughly \$1.1 Billion to build and approximately \$230 million each year to operate, the Stibnite Gold Project will inject hundreds of millions of dollars into Idaho's economy, bring hundreds of jobs into the state and contribute significant local and state tax revenue.

The old Stibnite mine site will likely never be cleaned up unless industry takes responsibility for those who came before them. Midas Gold plans to do just that. By mining the site, Midas Gold plans to restore the natural flow and gradient of the East Fork of the South Fork to reconnect historical spawning grounds. The company will repair blowout creek, permanently solving a source of massive sedimentation and habitat degradation. Plus, in reprocessing and repurposing millions of tons of spent ore and unconstrained tailings, Midas will safeguard water quality indefinitely.

Please adopt Alternative 2 laid out by Midas Gold Idaho.

Thank You,
