

Attention Ms. Jackson,

I am writing in support of the Stibnite Gold Project and the benefits it will bring to Idaho. This project has the potential to put hundreds of Idahoans to work, bring a \$1 billion investment into our state and restore an area of Idaho's backcountry desperately in need of repair.

The Stibnite Gold Project will help to restore the environment in our region. Under alternative two, Midas Gold has prioritized restoration work so many of the efforts occur early in the project. The company is also required to set aside all of the funds needed to properly restore the site in a special trust so the land will be restored no matter what happens to the company. Reclamation efforts have already started at the site. Midas Gold has planted thousands of trees and worked to reduce sediment entering waterways near the site. To me, these actions prove the company is truly committed to restoring the site.

The comment period has been extended once already. It should not be delayed further. This only delays Idaho from recognizing the benefits of the project. The current USFS timeline provides plenty of time to review the DEIS and comment. After reviewing the document, I encourage you to permit alternative 2 of the project.

Have a good day,

Name: Terry L Garrison
